

VEILLE TECHNOLOGIQUE

Sommaire

-
- 1. Inoreader
 - 2. Choix techniques
 - 3. API

Inoreader

Un lecteur de flux RSS pour simplifier sa veille digitale.
J'ai accès aux derniers articles parlant des technologies sélectionner :
(React, Node.js, etc...).

Un agrégateur puissant

Facilement configurable

A screenshot of a configuration interface titled "Surligneurs: 6". It lists six categories, each with a creation date, a delete icon, and a toggle switch. A large blue arrow points from the text "Facilement configurable" above to this list.

Surligneur	Créé à	Actions
css	14:46	
html	14:46	
javascript	14:45	
node js	14:45	
npm	14:45	
react	14:28
